7. PUBLIC HEARINGS:

   A. CB16-2016, An Ordinance Calling a November 8, 2016 Special Election to be Coordinated with the County, Submitting a Ballot Question, and Setting the Ballot Title Therefor

   Mayor Spellman read the title and opened the public hearing.
City Attorney Hoffmann explained that, if approved, this Council Bill would put on the November 8th Special Election a one-half percent increase in current sales tax to be used for marketing purposes, specifically the fireworks displays, holiday light displays and the public flower boxes. He said an estimated amount to be generated in the first year, as required by TABOR, is $325,000.

PUBLIC HEARING:
Mayor Spellman declared a Public Hearing on CB16, An Ordinance Calling a November 8, 2016 Special Election to be Coordinated with the County, Submitting a Ballot Question, and Setting the Ballot Title Therefor open and invited anyone wanting to address the Board either “for” or “against” the proposed ordinance to come forward.

No one came forward to speak and Mayor Spellman declared the Public Hearing closed.

Staff Report
BACKGROUND:
The City of Black Hawk has received (June 19, 2015) an application request for a Certificate of Appropriateness (COA) and Site Development Plan (SDP) from MBA Architecture on behalf of Monarch Growth, Inc. The request outlines a proposed new hotel tower building between the existing casino and parking garage currently under construction, located at 488 Main Street in Black Hawk. The extent and details of the proposed hotel are identified in the following descriptions and images.

The concept of a new hotel and casino tower in this location was originally proposed and presented to City Council as a part of the Monarch Casino Planned Unit Development rezoning application. City Council passed Ordinance 2013-15 on April 10, 2013 approving the rezoning to PUD and the PUD exhibit is recorded at the Gilpin County Clerk and Recorder’s office at reception number 152126. This PUD established new zoning for the entire Monarch property, adding new permitted uses and building standards to the site. The underlying zoning of the property was the Millsite Gaming (MG) zone district until it was rezoned by the City to the Gaming Outstanding Lodging & Dining (GOLD) zone district in 2013 (Ordinance 2013-47). The Monarch PUD remains the overlying zone over the GOLD district.

The proposed tower is situated at the location of the existing (original) Monarch parking garage. On March 23, 2016, City Council conditionally approved a Certificate of Appropriateness for the demolition of this garage (Resolution 20-2016). A City of Black Hawk demolition permit is required prior to demolition.

The proposed architecture of the tower is in line with the architecture approved in the PUD. Further, City Council conditionally approved a COA and SDP for the new parking garage (Resolution 37-2013, October 9, 2013) and conditionally approved a COA for exterior renovations of the existing casino to match the architectural theme of the tower and new garage (Resolution 51-2016, July 13, 2016). The tower has been designed so that there is a unified architecture for all three Monarch structures in Black Hawk, the new garage, the revised exterior of the existing casino building, and now the tower. Monarch and their design team have spent a considerable amount of time and effort to get these projects to blend together and this project essentially is the culmination of the exterior design approach for the entire project. Once this phase is completed Monarch will begin to move forward with the actual building plans and building permits in order to construct the proposed tower. As an informational note: all signs
shown on these included proposed building elevations simulate the desired signs, but are not being approved with this application. A new Comprehensive Sign Plan will be prepared in accordance with the City regulations.

Site Development Plan:

Excerpts from:

City of Black Hawk
Zoning Code
Chapter 16 – Zoning

Sec. 16-362. Site development standards and procedures for establishing vested property rights.

16-362(b). General Requirements.

(1) Site development regulations shall apply to all areas within the City that are in accordance with at least one (1) of the following:
   b. All uses allowed in the PUD Planned Unit Development zone district…

   (6) No site development plan will be approved unless all components of the proposed development comply with the Black Hawk Zoning and Subdivision Ordinances and all other applicable ordinances.

Staff response: The SDP has been reviewed against the development standards provided in the GOLD zone district and the Monarch Casino PUD. The tower building is in conformance with all bulk and setback standards. The maximum height allowed in the Monarch PUD is 335 feet. The tower is 314 feet tall along Main Street and 320 feet tall along North Clear Creek.

16-362(c). Application and site development plan submittal requirements.

Staff response: Section 16-362(c) outlines the required submittal items that must accompany an application for a Site Development Plan. The submitted SDP contains all necessary items.

Certificate of Appropriateness:

Excerpts from:

City of Black Hawk
Zoning Code
Chapter 16 – Zoning

Sec. 16-368. City Council historic review process.
Any person seeking to renovate the exterior of, add to or construct a new building shall be subject to the following procedures. Any such renovation, construction or demolition shall be subject to the City’s design standards.

16-368 (3). Procedure to authorize the erection, construction, reconstruction, alterations to or demolition of improvements.
a. No building permit or site development plan shall be issued unless accompanied by a Certificate of Appropriateness (CofA) issued by the City Council for any of the following acts:
   1. Construction of a new building, structure or improvement;
   2. Alteration or reconstruction of, or addition to, the exterior of any improvement;
   3. Demolition of any improvement;
   4. Construction or erection of or addition to any improvement upon any land located within the City;

16-368(3)(f): Criteria for determining appropriateness of proposed work. In determining the appropriateness of work (other than demolition) as proposed in an application for a site development plan or a building permit, the Board of Aldermen shall consider the following:

1. All plans, drawings and photographs as may be submitted by the applicant;

**Staff Response:** The applicant has submitted the required plans and drawings.

2. Information presented at a public hearing held concerning the proposed work:

**Staff Response:** A representative of Monarch Growth, Inc. will provide additional information at the City Council meeting if needed.

3. The purpose of this Chapter:

**Staff Response:** The purpose of this Chapter is to ensure that all development and in this case, the new construction of a tower, meet the zoning requirements of the City of Black Hawk. The property is zoned GOLD District with a PUD overlay. The purpose of the GOLD zoning district is to recognize and encourage the sustained economic viability of the community by allowing gaming and entertainment and encouraging a complementary mix of restaurant and lodging accommodations in a manner which recognizes the continuing viability of the City as a destination resort community. The GOLD zone district development standards have been used in evaluating the project as well. Staff finds that the proposed new tower will also continue to uphold these zoning standards as did the new garage and the new exterior of the Casino building.

4. Compliance with the ordinances of the City and the payment of all fees required by the ordinances of the City:

**Staff Response:** The applicant has and will continue to pay all necessary fees required by the ordinances of the City.

5. The historical and architectural style, the general design, arrangement, texture, materials and color of the development, building or structure in question or its appurtenance fixtures; the relationship of such features to similar features of the other buildings within the City and the position of the building, structure, park or open space in relation to public right-of-way and to other buildings and structures in the City:
Staff Response: The proposed building will match or compliment the current design, materials, and colors of materials on the new parking garage facade and soon to be renovated casino facade. The proposed structure is appropriate for the GOLD zoning district. Concurrently, the materials and design match the style approved by the City of Black Hawk in the PUD.

6. The effects of the proposed work upon the protection, enhancement, perpetuation and use of the City which cause it to possess a special character or special historical or aesthetic interest or value;

Staff Response: The architecture of the building fits in with the historic character of the city. The proposed building design will not affect the historic or aesthetic interest of the site or the district. The architecture of the tower matches the conceptual style approved by City Council and will match the garage and casino.

7. The design standards for the City:

Staff Response: The proposed renovations have been reviewed against the Commercial Design Guidelines for Non-historic Buildings. The proposed hotel building is appropriate for the district and will match the design of the recently constructed Monarch parking garage and renovated casino facade. The proposal meets the City’s Commercial Design Guidelines. See comments below.

Excerpt from:
City of Black Hawk Commercial Design Guidelines

Section 5 – Building Design

B. New Buildings

I. Adjacent Properties
a) Respect the scale, massing and design of neighboring and adjacent buildings in the project design.
   • Use traditional historic relationships with adjacent properties to site structures and develop building massing and footprint accordingly.
   • Complement adjacent existing or planned developments in the location and orientation of buildings and structures, their massing and scales, and the location of entrances and windows. 
Staff Response: The scale, massing, and design of the tower will complement the adjacent buildings.

V. Exterior Building Design
a) All new building designs shall be compatible not only with the immediately adjacent buildings, but with the entire context in which it is located, as one would see it when standing on the street viewing both sides of the street for the entire length of the block.

Staff Response: The scale, massing, and design of the tower will complement the entire Main Street area.
VIII. Exterior Wall Materials
   a) Depending on the district and the historical building type model, the following natural materials may be appropriate as primary building materials:
      a. Vertical board and batten siding
      b. Wood clapboard siding
      c. Native stone
      d. Brick
      e. Sheet metal siding

Staff Response: The significant amount of native stone proposed for the exterior, especially on the ground floor adjacent to pedestrian walkways adequately meets this requirement.

STAFF COMMENTS:
Staff from Black Hawk and Baseline Corporation has evaluated the information provided by the Monarch Growth, Inc. representative, MBA Architecture. The City of Black Hawk Municipal Code allows for the construction of new commercial buildings with the approval of a Certificate of Appropriateness and Site Development Plan. Staff from Black Hawk and Baseline Corporation recommends that a Certificate of Appropriateness and approval of a Site Development Plan be granted. The proposed building is acceptable and meets the Design Guidelines for commercial uses adopted by the City of Black Hawk.

The proposed tower is an allowed use in the GOLD zone district and the Monarch PUD. Additionally, the PUD established bulk standards with regard to height and setbacks. The maximum building height per the PUD is 335 feet. The tower is not taller than 319 feet, 9 inches. The PUD’s minimum north and south setbacks are 0 feet. The PUD setbacks prevail over the GOLD district setbacks.

The SDP indicates that there are portions of the building that will overhang to the south above the public right-of-way (floors 2 & 3 above street level) for Main Street as well as to the north into property owned by CDOT. Overhangs were indicated in the conceptual site plan presented with the PUD rezoning as well.

The overhang to the north towards North Clear Creek is allowed by the Special Use Permit granted by CDOT to Monarch to extend into the CDOT ROW. The building overhang into Main Street necessitates that Monarch Growth and the City of Black Hawk enter into a License Agreement for Monarch’s use of City property. A License Agreement has been reviewed by counsels for both parties and Monarch has signed the agreement. It is attached and included in this packet.

The SDP indicates the construction of an extension of the trail along North Clear Creek. The trail will be adjacent to the building and will not be narrower than 8 feet. When this trail is constructed it will span from the far east end of this property all the way to Chase Street making that a complete mile of trail along North Clear Creek.
FINDINGS:
City Council may approve, conditionally approve, or deny a Certificate of Appropriateness and Site Development Plan. To support this proposal, the following findings can be used:

The proposed Monarch Casino Hotel Tower increases the visual and physical quality of the Monarch Casino and Hotel property and the Main Street Commercial Corridor. The proposal meets the intent of the criteria outlined in Sections 16-362 and 16-368 of the Municipal Code and those found in Black Hawk’s Design Guidelines as noted and evaluated in this Staff Report presented to City Council.

In summary, Staff recommends that a Site Development Plan be approved and a Certificate of Appropriateness be granted, subject to the following conditions:

1. All construction of the tower and related improvements shall match the final site development plan, as approved by City Council and Staff.

2. All applicable right-of-way, building, and electrical permits must be obtained prior to beginning construction.

3. A Safety and Access plan shall be required prior to issuance of any demolition permit of the existing garage.

4. A License Agreement for Monarch facilities located on property owned by the City of Black Hawk must be obtained prior to construction. Areas of the building projecting into City of Black Hawk right-of-way will comply with the License Agreement between Monarch Growth Inc. and the City of Black Hawk.

5. Areas of the building projecting into Colorado Department of Transportation right-of-way will comply with the agreement and special use permit between Monarch Growth, Inc. and the Colorado Department of Transportation.

6. Civil Construction Plans for improvements needed and proposed along Main Street shall be submitted for review and approval by the City before any work begins in Main Street or on the building.

Due to the proposed encroachments of the building into the right-of-way for Main Street, a License Agreement is required. Staff recommends that a License Agreement with Monarch Growth, Inc. be entered into to allow the encroachment.
RECOMMENDATIONS:
Black Hawk and Baseline Staff recommends City Council consider a MOTION TO APPROVE WITH CONDITIONS a Certificate of Appropriateness and Site Development Plan for the Monarch Casino Hotel Tower, as submitted and included with this Staff Report. The conditions are as follows:

1. All construction of the tower and related improvements shall match the final site development plan, as approved by City Council and Staff.

2. All applicable right-of-way, building, and electrical permits must be obtained prior to beginning construction.

3. A Safety and Access plan shall be required prior to issuance of any demolition permit of the existing garage.

4. A License Agreement for Monarch facilities located on property owned by the City of Black Hawk must be obtained prior to construction. Areas of the building projecting into City of Black Hawk right-of-way will comply with the License Agreement between Monarch Growth Inc. and the City of Black Hawk.

5. Areas of the building projecting into Colorado Department of Transportation right-of-way will comply with the agreement and special use permit between Monarch Growth, Inc. and the Colorado Department of Transportation.

6. Civil Construction Plans for improvements needed and proposed along Main Street shall be submitted for review and approval by the City before any work begins in Main Street or on the building.

Black Hawk and Baseline Staff further recommends the City Council consider a MOTION TO APPROVE a License Agreement between the City of Black Hawk and Monarch Growth, Inc. as submitted for the encroachments of the proposed tower over Main Street as delineated and agreed to in such attached License Agreement.

### Surface Mount

- Cast aluminum with ½" NPSM fixture mount. Internal set screw provided for locking position. 5 cu. in. internal volume. Super TGIC powder coat paint over clear anodizing and titanated zirconium conversion coating.

**NOTE:** May also be used to hard mount low voltage fixtures.
## Fixture Options
Ordered Separately from Fixture

### Aluminum Adjustable Glare Shield
Spun aluminum shield with 45° cut and drain hole. Includes die-cast low copper alloy (< 0.6%) aluminum lens ring. The shield is rotatable 360°. Replaces standard lens ring/hood on fixture.

DOWNLIGHT PENDANT-SMALL
18" LED LUMINAIRE

Description
Performance and directional control make this luminaire highly versatile and able to accommodate needs in the strictest environments. Multiple size and shade configurations make this luminaire suitable for a wide variety of decorative applications, especially where a Dark Sky friendly instrument is desirable.

The decorative housing is vented at top and bottom to allow natural air convection cooling of IP66 sealed optical modules, while protecting heat-sink fins from debris collection. The driver is accessible through the bottom. Greater than 88% optical efficiency, highly uniform with reduced hot-spot and greater fixture center spacing. This luminaire uses less than 60% of the energy yet achieves greater fixture spacing, improved uniformity vs. Metal Halide.

Optical Chamber:
Individual IP66 sealed optical modules

Installation
The luminaire will mount to the bracket. Post top luminaire brackets will mount to a 3" OD post or tenon with (6) 5/16" stainless steel set screws. Wall bracket models have four 3/8" holes for mounting (wall mount hardware is not included).

Driver:
Convection cooled driver with electronic constant current operation with over voltage and short circuit protection. Automatic voltage sensing for 120 to 277v input. Dimmable with ELV available at 120v only.

Optics:
- High Performance individual optical refractive lens for each LED module
- Cool, neutral, or warm color temperatures
- IESNA Full Cutoff
- Available in Type 2, 3, 4, or 5 light patterns

Construction:
- Cast aluminum housing
- Spun aluminum shade

Finish
Premium quality thermoset polyester powdercoat for a durable finish in the following:

ParadigmLED WWX Series

Performance linear exterior LED wall grazing fixture with solid white light

With a light output of up to 580 lumens and power consumption of only 9 W per foot, ParadigmLED WWX Series is perfect for applications calling for a balance of cost and performance. Fixtures process power directly from line voltage, eliminating the need for external power supplies. Fixtures are available in standard color temperatures of 2700 K, 4000 K, and 5500 K, as well as custom color temperatures ranging from 3000 K to 6500 K. Multiple fixture lengths and beam angles support a large range of façade or surface illumination applications.

- Tailor light output to specific applications — Available in four standard lengths, with standard 10°, 15°, 25°, 45°, 60° beam angles.
- High-performance illumination and beam quality. Fixtures deliver up to 760 lumens of high-quality white light per foot. Superior beam quality offers striation-free saturation for several feet from fixture placement with no visible light scalloping between fixtures.
- Line-voltage power controls power output to fixtures directly from line voltage over a single standard cable, dramatically simplifying installation and lowering total system cost.
- Versatile installation options — Convenient push-and-click connectors let you easily and rapidly install Leader Cables and Jumper Cables. Multiple cable lengths support a variety of layouts. Constant torque locking hinges offer simple and consistent position control from various angles. The low-profile aluminum housing accommodates placement within most architectural niches.

- Universal power input range — Fixtures accept a universal power input range of 100 – 277 VAC for consistent installation anywhere in the world.
- "Cool lighting" functionality — ParadigmLED WWX fixtures do not heat illuminated surfaces, discharge infrared radiation, or emit ultraviolet light.
- Dimming capability — Dimming available via 0-10V dimming.

ATTACHMENT NO. 8

LICENSE AGREEMENT (PARTIALLY EXECUTED)
LICENSE

THIS LICENSE is made and entered into this ___ day of ______, 2016, by and between the CITY OF BLACK HAWK, Colorado whose address is 201 Selak Street, Black Hawk, CO 80422 (the "City") and MONARCH GROWTH INC., owner of the real property whose address is 488 Main Street, Black Hawk, CO 80422 ("Licensee").

1. PROPERTY LICENSED. The property that is licensed for the use and the term provided for in this license is described in Exhibit A, which is attached hereto and incorporated by this reference ("Property Licensed"). The Property Licensed for the construction and use of a building projecting over Main Street, described herein, is subject to all easements and rights-of-way of record. The Property Licensed shall be subject to the submittal of an as-built exhibit depicting the ultimate improvements. If the location of the improvements is not located within the Property Licensed as shown in Exhibit A, an amended License Agreement shall be required and a new legal description will need to be included.

2. RELOCATION. In the event the construction or reconstruction of any roadways, or the construction, reconstruction or repair of any of the City's property necessitates the relocation or removal of the structure(s) or fixtures(s) described in paragraph 5 herein, then Licensee shall, at its sole cost and expense, timely perform or cause the performance of such relocation or removal of the structures(s) or fixture(s).

3. INSURANCE. Licensee shall obtain for itself, its agents, successors, assigns, lessees, licensees and agents, necessary and adequate workman's compensation insurance, personal injury insurance, and property damage insurance, with limits commensurate with the hazards and risks associated with the use of the Property Licensed, but in no event less than the liability limits established by the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, et seq., as now in effect or as hereinafter amended, and a deductible of not less than one hundred thousand dollars ($100,000.00). Neither Licensee nor its agents, successors and assigns shall commence any construction, placement, operation or maintenance of the fixture or structure on the Property Licensed until it has obtained all insurance required under this section and shall have filed a certificate of insurance or a certified copy of the insurance policy with the City. Each insurance policy shall list the City as an additional named insured and shall contain a clause providing that coverage shall not be cancelled by the insurance company without thirty (30) days written notice to the City of intention to cancel.

4. UTILITIES. Licensee covenants and agrees to pay all charges for electric power and other utilities assessed, levied or incurred on the Property Licensed by reason of the operation of the building during the term of this license or any renewal thereof.

5. INSTALLATION, MAINTENANCE, REPAIR AND ALTERATIONS. Licensee shall initially install the building projecting over Main Street on the Property Licensed in the manner specified by the Public Works Director. After initial installation, Licensee covenants and agrees not to make or permit to be made any alterations in, or
additions to, the Property Licensed without the prior written consent of the Public Works Director and to keep the improvements thereon including wiring, if appropriate, in good repair and in a condition that will not interfere with the proper functioning of the Property Licensed, at the expense of Licensee; ordinary wear and tear and loss by fire, flood, or act of God excepted.

6. USE. Licensee covenants and agrees that it shall utilize the Property Licensed to Licensee and for no other purpose and not to use the Property Licensed or permit it to be used for purposes prohibited by the laws of the applicable United States, State of Colorado, or any political subdivision thereof.

7. RE-ENTRY. Licensee covenants and agrees to permit the City or its duly authorized representatives to inspect the Property Licensed and to do such other acts and things, as it deems necessary for the protection of its interests therein.

8. NOTICE. Any notice required under this License shall be in writing and mailed by certified mail to the respective parties at the address hereinabove given. The Public Works Director shall be the representative of the City to accept or give any approval, notice or the like provided hereunder. In the event Licensee should change the address hereinabove given during the term of this License, Licensee shall notify the City in writing of such change of address:

The City: Tom Isbester
Director of Public Works
City of Black Hawk
P.O. Box 68
Black Hawk, CO 80422

Licensee: Monarch Growth Inc.,
3800 S. Virginia St
Reno, NV 89502

9. NO COVENANT OF TITLE OR QUIET POSSESSION. The rights granted herein are without covenant of title or warranty of quiet possession of the Property Licensed and no water or water rights are granted by this License.

10. SUCCESSORS AND ASSIGNS. This License shall insure to the benefit of, and be binding upon, the successors and assigns of the parties.

11. ASSIGNMENT OR SUB-LEASE. Licensee covenants and agrees not to assign this License or to sublet any part of the Property Licensed without first obtaining the written consent of the City, which will not be unreasonably withheld.

12. PROPERTY LICENSED TAKEN "AS IS." Licensee understands and agrees that the Property Licensed is licensed "as is." The City makes no warranty, written or

Rev. 01/2015
implied, that the Property Licensed is fit for any purpose or that it meets any federal, state, county or local law, ordinance or regulation applying to the Property Licensed.

13. LIABILITY AND INDEMNIFICATION. The City shall not be liable for any loss, injury, death or damage to any person or personal property which may arise from the Licensee's use or condition, caused by Licensee's use, of the Property Licensed including, but not limited to, loss, injury, death, or damage resulting from ice, water, rain, snow, gas, electrical wires, fire, equipment malfunctions, faulty installation, or theft. Licensee hereby expressly agrees, to the extent permitted by law, to defend, indemnify and hold harmless the City, its officers, agents, employees and insurers against any liability, loss, damage, demand, action, cause of action or expense of whatever nature (including court costs and attorney fees) which may result from any loss, injury, death or damage allegedly sustained by any person, firm, corporation or other entity which arises out of or is caused by reason of Licensee's negligent use of the Property Licensed or Licensee's failure to fulfill the terms and conditions of the License.

14. RESERVATION FOR COUNCIL USE. This License is made under and conformable to the provisions of all City of Black Hawk regulations insofar as applicable. Said provisions are incorporated herein and made part hereof by this reference and shall supersede any apparently conflicting provisions otherwise contained in the License. The City reserves the right to make full use of the Property Licensed as may be necessary or convenient in the operation of the public streets and the City retains all rights to operate, maintain, install, repair, remove or relocate any of its facilities located within the Property Licensed at any time and in such a manner as it deems necessary.

15. VENUE. For the resolution of any dispute arising hereunder, venue shall be in the courts of Gilpin County, State of Colorado.
IN WITNESS WHEREOF, the parties hereto each herewith subscribe the same in duplicate.

CITY OF BLACK HAWK
REQUEST FOR COUNCIL ACTION

SUBJECT: Approve Resolution 61-2016, a Resolution approving the 2016 Concrete Curb & Gutter Repair.

RECOMMENDATION: If City Council chooses to approve Resolution 61-2016, a Resolution approving the agreement, the recommended motion is as follows:

"Motion to Approve Resolution 61-2016, a Resolution approving the 2016 concrete Curb & Gutter Repair project with Andraos Construction LLC in the amount of 43,995.75."

SUMMARY AND BACKGROUND OF SUBJECT MATTER:
In an effort to keep the City streets looking good and operating properly, the street department manages an annual concrete curb/gutter repair project. Staff solicited proposals from several contractors and received two proposals. Work will include curb and gutter work mainly along Main Street as well as some bridge deck and inlet work along Selak Street.
