A. Council Bill 19, A Bill for an Ordinance Rezoning Certain City-Owned Properties to the History Appreciation Recreation Destination (HARD) District and the Public Facilities (PF) District (continued from August 26, 2020)

Mayor Spellman read the title and opened the public hearing.

Baseline Consultant Harris went through his presentation. He explained this was a City initiated rezone project of 15 City-owned properties. He thanked City Manager Cole, Community Planning & Development Director Linker, Public Works Director Isbester, Baseline Planners Stonberg and Watel, and Baseline Surveyor Lancaster for their hard work on this project. He said the project was separated into two parts, Part A to include ten properties being rezoned to the HARD District, and Part B includes five properties being rezoned to the PF District. He added that the criteria called out in the Municipal Code had been evaluated, and staff believes the need exists for rezoning and meets the criteria outlined in the Code, they recommend approval.

PUBLIC HEARING:  
Mayor Spellman declared a Public Hearing on Council Bill 19, a Bill for an Ordinance rezoning certain City-owned properties to the History Appreciation Recreation Destination (HARD) District and the Public Facilities (PF) District open and invited anyone wanting to address the Board either “for” or “against” the proposed ordinance to come forward.

No one wished to speak, and Mayor Spellman declared the Public Hearing closed.

Alderman Midcap asked why Property 4 (Millsite 52) was being changed to the HARD district while Millsite 51 and 53 on either side of it were not included for the rezoning. Mayor Spellman replied that it is a parking area, and all parking lots associated with Maryland Mountain have been rezoned to the HARD District. Mr. Harris suggested that perhaps those properties are not City-owned or were already rezoned; he will look into it.

Alderman Midcap then asked about Property 14 to be rezoned to the PF District, as it is a parking area in a residential area and wondered if it
could be rezoned back if ever sold. City Hoffmann confirmed property can always be rezoned.

B. Resolution 46-2020, A Resolution Denying a Variance to Allow a Height Variance which would Allow a Structure 103 Feet in Height, but Allowing a Variance to 55 Feet in Height (continued from June 10, 2020)

Mayor Spellman read the title and opened the public hearing.

Baseline Consultant Harris introduced this item and went through his presentation. He provided the background on Vertical Bridge’s License Agreement over a year ago for this City-owned property, and the June 10 Council meeting to start utilizing it. At that meeting, he said staff had recommended denial of the original proposal of a 103-foot tower, but the applicant agreed to rethink the height by discussing options with Proximo as the neighboring property owners. The applicant has come back with smaller heights of 55-foot, 65-foot, and 75-foot proposals for consideration. After reviewing the Municipal Code’s variance criteria, he said that staff is willing to recommend for approval the 55-foot tower, which would be a height variance request of ten feet. The Code allows for a total height of 45 feet. Mr. Harris said a 55-foot tower would allow for three cell phone carriers. He added that the tower’s design would be a barrel at the top, as shown in the packet.

Doug Barker of Woodstock, Georgia, representing Vertical Bridge, and Matt Grugan of Vertical Bridge, were present for any questions. Mr. Barker said that any additional height would equal additional carriers if Council were so inclined, but they are happy with the 10-foot variance to 55 feet.

Mayo Spellman declared a Public Hearing on Resolution 46-2020, a Resolution denying a variance to allow a Height Variance which would allow a structure 103 feet in height, but allowing a variance to 55 feet in height open and invited anyone wanting to address the Board either “for” or “against” the proposed resolution to come forward.

Mayor Spellman read the title and opened the public hearing.

Baseline Consultant Harris introduced this item that now pertains to a 55-foot tower. He explained that the criteria for a Certificate of Architectural Compatibility and a Site Development Plan had been met, and they will work with the applicant to change any reference to the height to be 55 feet, as approved.

Applicants Barker and Grugan were present for any questions. Mr. Harris added that the Lease Agreement approved in 2019 would have to be updated before any building permits are issued.

Mayor Spellman asked about the timeline to construct the tower, and Mr. Grugan replied as soon as they can pull a building permit, they will be ready, so hopefully before the end of the year.

D. Council Bill 26, An Ordinance Approving an Intergovernmental Agreement (IGA) Between Gilpin County, the City of Black Hawk, and the City of Central Regarding Lake Gulch Road

Mayor Spellman read the title and opened the public hearing.

City Attorney Hoffmann introduced this item. He said this resulted from the Term Sheet that the City entered into with Gilpin County prior to the public hearing on the Proximo Annexation. That term sheet, he said, are the obligations by the City to maintain Lake Gulch Road. He stated that what occurred subsequently as part of the settlement between Black Hawk, Central City, and Proximo is that Central City wanted to take over maintenance of Lake Gulch Road that is within its growth area and ultimately an IGA between the City of Black Hawk and Gilpin County through the Term Sheet has now morphed into a three-party IGA. He noted that Black Hawk and Central City are getting conveyed to them by Quit Claim Deed that portion of Lake Gulch Road that falls within their respective growth areas. He went on to say that the packet, at the time of posting, did not have Appendix 4, which are the road standards that Black Hawk and Central City are subject to. He informed Council that he just received it from Gilpin County’s attorney only 35 minutes before today’s meeting, so Gilpin County did approve the IGA on September 15, but before Appendix 4 even existed. He said the recommendation is to approve this ordinance with its condition being subject to final approval by the City Manager and City Attorney after reviewing Appendix 4.

PUBLIC HEARING: Mayor Spellman declared a Public Hearing on Council Bill 26, an Ordinance approving an Intergovernmental Agreement between Gilpin County, the City of Black Hawk, and the City of Central regarding Lake Gulch Road open and invited anyone wanting to address the Board either “for” or “against” the proposed ordinance to come forward.

Community Planning and Development Director Linker explained that her department has cleaned up some language in the building, electrical, and land use sections, and now that her department has reduced staffing, she has asked the Conveyance Consultant to take over some of the duties that were previously performed in-house, so administrative fees, to be passed on to the applicant, have been added to that section.

**B. Resolution 62-2020, A Resolution Making Certain Address Changes Within the City for Certain Properties on State Highway 119, Chase Street, Gregory Street, and Miners’ Mesa Road**

Mayor Spellman read the title.

Baseline Consultant Esterl introduced this item, which was necessitated by the improvements on Gregory Street. After working with the City to identify any other addresses that may need adjustment, the packet’s attachment is proposed. She explained they suggest Highway 119 carry an additional name of Clear Creek Boulevard only within the City limits to separate it from any relation to Clear Creek Street. She said they are also proposing changing the numbers on Highway 119 from three digits to four digits to match the County’s numbering system.

Mayor Spellman elaborated on what precipitated the Clear Creek Boulevard name’s need because commercial truckers were going up Marchant Street looking for Clear Creek Street. He said Boulevard’s use elevates those addresses to a commercial level versus residential houses with the Clear Creek Street name.

Ms. Esterl also noted that Transportation Avenue would be eliminated as there was no need to have addresses on this road; those addresses will be changed to Miners Mesa Road addresses. All changes are to take effect by January 1, 2021.

Mayor Spellman read the title.

Senior Civil Engineer Reed introduced this item. He said the Design-Build contract was approved in April, and this amendment is to construct those improvements. He said additional features include a high-density mobile storage unit and a set of pre-fab evidence lockers. The price includes their design fee of $12,650 already included in the contract, and they can begin in mid-October and probably finish in January.

She added that the preliminary quote was reduced by the City’s loss experiences and credits, which reduced the amount to $262,761.97.
